We make the world more colourful.

We produce the item to your wishes choosing from a variety of standard colours or special requirements (colour sample or Pantone). Be it translucent, opaque, daylight colours, with glitter or metallic effect.

There are no limits to your colour request. All our colours correspond to the applicable regulations and directives in Germany and the EU. Address the realization of your ideas to us with confidence.

Legal notice.

Our catalogue is only intended for buyers who wish to use the goods and services exclusively within the scope of their independent professional, commercial, official or business activities and not for private individuals. All information on goods and services is non-binding and does not constitute a legally binding contractual offer, but only a so-called „invitatio ad offerendum“ (an invitation to submit an offer). **If prices are stated in the catalogue, these are indicative and non-binding industry prices in EUR (for stand see back of catalogue) plus statutory VAT. In addition, if applicable, there are costs for finishing and other ancillary costs such as packaging, shipping and transport costs, customs duties etc., as well as (if applicable) the statutory value added tax.** The product illustrations are not binding. We will be pleased to send you a sample for a precise assessment of the guaranteed properties and functions as well as the colour accuracy of a product. This sample is binding for placing an order. In the case of articles with advertising imprint, we will be pleased to provide you with a proof sample for binding

approval of the print, the printing stand and the product characteristics. All articles with customer imprint shown in this catalogue are only for the performance presentation of the printing technology and for reference purposes. The rights to the illustrated logos and brand names as well as to the illustrated custom-made products belong exclusively to the respective copyright/brand owners. Please note that in the case of set items which are marked „Made in Germany“ or „Made in Europe“, it is possible that not all individual components of the set are manufactured in Germany or Europe. However, it goes without saying that the main manufacturing or processing steps for sets marked accordingly are carried out in Germany or Europe (depending on the marking). Only the laws of the Federal Republic of Germany apply to the contractual relationship. The UN Convention on the International Sale of Goods (CISG) and the referral provisions of German international private law (IPR) shall not apply. Errors and misprints reserved.

MADE IN Germany.

The Made in Germany designation of origin is highly regarded and is considered a guarantee of quality worldwide. After decades in which manufacturing boomed in the Far East, recent years have seen a noticeable shift in thinking. There has been an increasing focus on regional production for some time now. After all, producing domestically means supporting German companies and thus complying with German quality standards. This results in shorter production times, flexible ordering processes and many other advantages.

Benefits.

- ✓ High quality standards.
- ✓ Short transport routes.
- ✓ Planning reliability.
- ✓ Fast delivery times.
- ✓ Well-thought-out, functional product design.
- ✓ Fast and uncomplicated order processing.
- ✓ Job security.
- ✓ Strengthening Germany as a business location.

Quality Made in Germany.

HIGH TIME FOR NEW THINKING.

In economic, ecological and social terms: Because what we do today determines what the world will look like in future. We are therefore committed to a holistic sustainability strategy and to products that fulfil these standards.

Plant-based bioplastic.

MADE IN GERMANY

What is bioplastic?

elastoNature plastics are environmentally friendly alternatives to conventional plastics.

elastoNature consists of carbohydrates (e.g. maize or sugar cane) mixed with mineral fillers.

The basic building material of the plant-based plastic is carbohydrates, which are converted into plastic through chemical processes. The carbohydrates thus replace crude oil.

They are bio-based, can be biodegradable or long-lasting and offer a more sustainable option for reducing dependence on fossil raw materials in plastics production. The market for this has been growing for several years.

Benefits.

- ✓ Durable and robust bioplastic.
- ✓ Free from harmful substances such as BPA, PFAS, formaldehyde or phthalates.
- ✓ 100% recyclable.
- ✓ Dishwasher-safe.
- ✓ Sustainably produced in Germany.

Our product selection made from bioplastic.

Make a difference together - with ISCC!

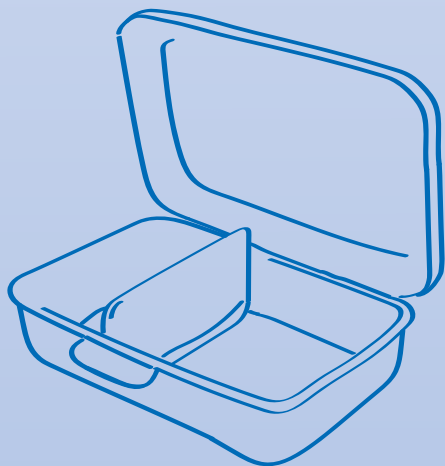

What is ISCC?

ISCC (= International Sustainability and Carbon Certification) is an independent, global certification system on a voluntary basis covering the entire supply chain. It identifies the extraction of resource-conserving raw materials and the ecologically valuable products made from them.

Why ISCC PLUS?

ISCC PLUS is the certification system for globally operating companies in non-regulated markets that offer final products.

Our ISCC PLUS certified polypropylene.

87%*

BIO-CIRCULAR MATERIAL.

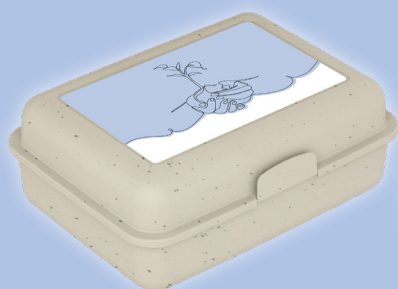

Bio-circular Material is obtained from waste sourced from forestry, agriculture and the food industry. Raw materials include: waste cooking oil, straw, forestry waste, pine oil.

* Roughly 10% addition of conventional raw material required for production and roughly 3% addition of colour pigments.

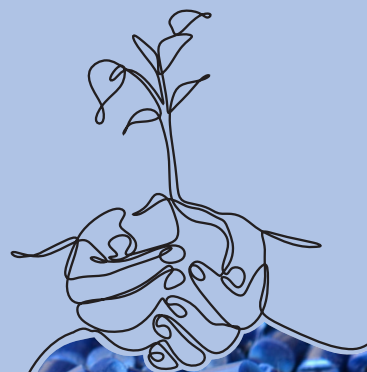

Our items made from ISCC material.

Sustainable raw material instead of fossil resources.

Our products are produced sustainably in Germany using our own green electricity. We are committed to the responsible use of plastic!

Quality
Made in
Germany.

Also available without separating tray (05299).

Lunch box „Cube“ deluxe, with compartment divider 05301

Lunchbox in square shape with click closure and removable compartment divider. Due to the shape and the ample height, it is ideal for bread rolls and sandwiches. Perfect for IMould logo on the lid.

Plastic/Polypropylene
140 mm x 140 mm x 65 mm

48 Unit, Bulk

Storage box „School box“ junior 05268

Practical, small snack box with 1 click closure. Available in many colours. IMould finish possible. Also fits perfectly in the storage box „School-Box“ large (05236).

Plastic/Polypropylene
160 mm x 117 mm x 41 mm

80 Unit, Bulk

Also available without partition wall (05282).

Storage Box „School Box“ medium with separator 05276

Practical snack box with 1 click closure and removable separator. Available in many colours. IMould finish possible.

Plastic/Polypropylene
160 mm x 116 mm x 50 mm

60 Unit, Bulk

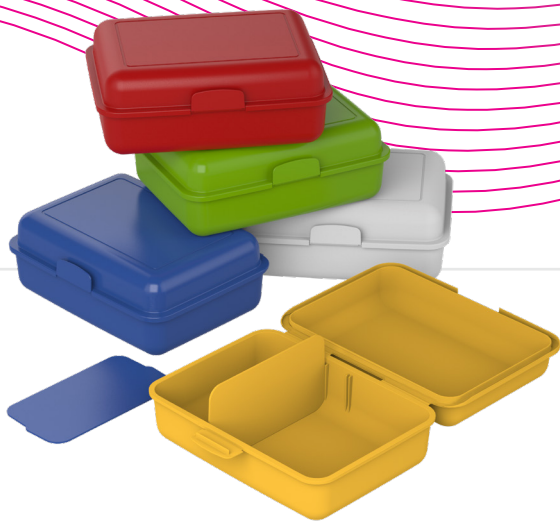

Also available without separating tray (05296).

Lunch box „School Box“ deluxe, with compartment divider 05297

A spacious lunchbox made of PP with click closure and removable compartment divider, which separates various foods during storage and transportation. The box is food-safe and 100% BPA-free. Its surface is perfect for an IMould logo.

Plastic/Polypropylene
190 mm x 139 mm x 70 mm

40 Unit, Bulk

Also made from bioplastics (15244).

Lunch box „Break box“ 05244

Take a Break! Chic lunch box with click-on closure and practical divider. Available in many colours and ideally suited for IMould finishing.

Plastic/Polypropylene
175 mm x 128 mm x 69 mm

50 Unit, Bulk

Lunch box „Break“ 05230

Practical, budget storage box made of ultra-light material. Keeps your sandwiches or other foods fresh. With 1 snap fastener.

Plastic/Polypropylene
153 mm x 105 mm x 55 mm

60 Unit, Bulk

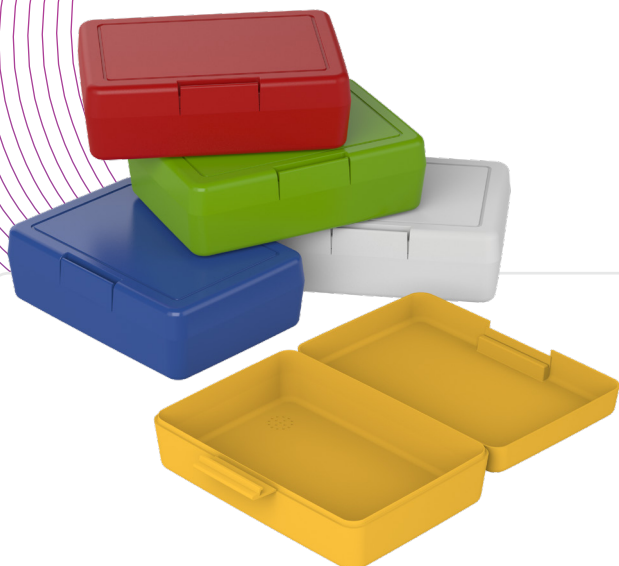

Storage box „Brunch box“ 05242

The perfect biscuit and snack jar. Available in a large selection of colours. With snap fastener. IMould labelling possible.

Plastic/Polypropylene
125 mm x 85 mm x 40 mm

120 Unit, Bulk

Lunch box „Lunch box“ 05243

Perfect for your next snack. Chic storage tin with click closure - available in various colours and ideally suited for IMould finishing.

 Plastic/Polypropylene
 162 mm x 113 mm x 50 mm

 60 Unit, Bulk

Storage box „Snack box“ 05247

Ideal for a small snack. With 2 snap fasteners available in a large selection of colours. IMould labelling possible.

 Plastic/Polypropylene
 180 mm x 125 mm x 42 mm

 50 Unit, Bulk

Also available without partition wall (05245).

Lunch box „Dinner Box Plus“ 05025

Keeps everything in place. Spacious sandwich box with 2 snap fasteners and removable separator for different foods. IMould labelling possible.

 Plastic/Polypropylene
 180 mm x 130 mm x 65 mm

 36 Unit, Bulk

Storage box „Apple box“ 05037

Round box with space for 1 apple. Ideal for protecting the apple against bruising. 1 snap fastener.

 Plastic/Polypropylene
 Ø 95 mm

 50 Unit, Bulk

Eco-Lunchbox „Switch“ 15389

Two is better than one. Lunchbox with double-click closure and insertable hinge for a secure hold. Both halves of the box can be made in different colours and branding with IMould motifs, to allow for more advertising space and to capture even more attention. Made of organic plastic and available in many beautiful natural colours.

 Plastic/Bio-based plastic

 60 Unit, Bulk

 145 mm x 125 mm x 50 mm

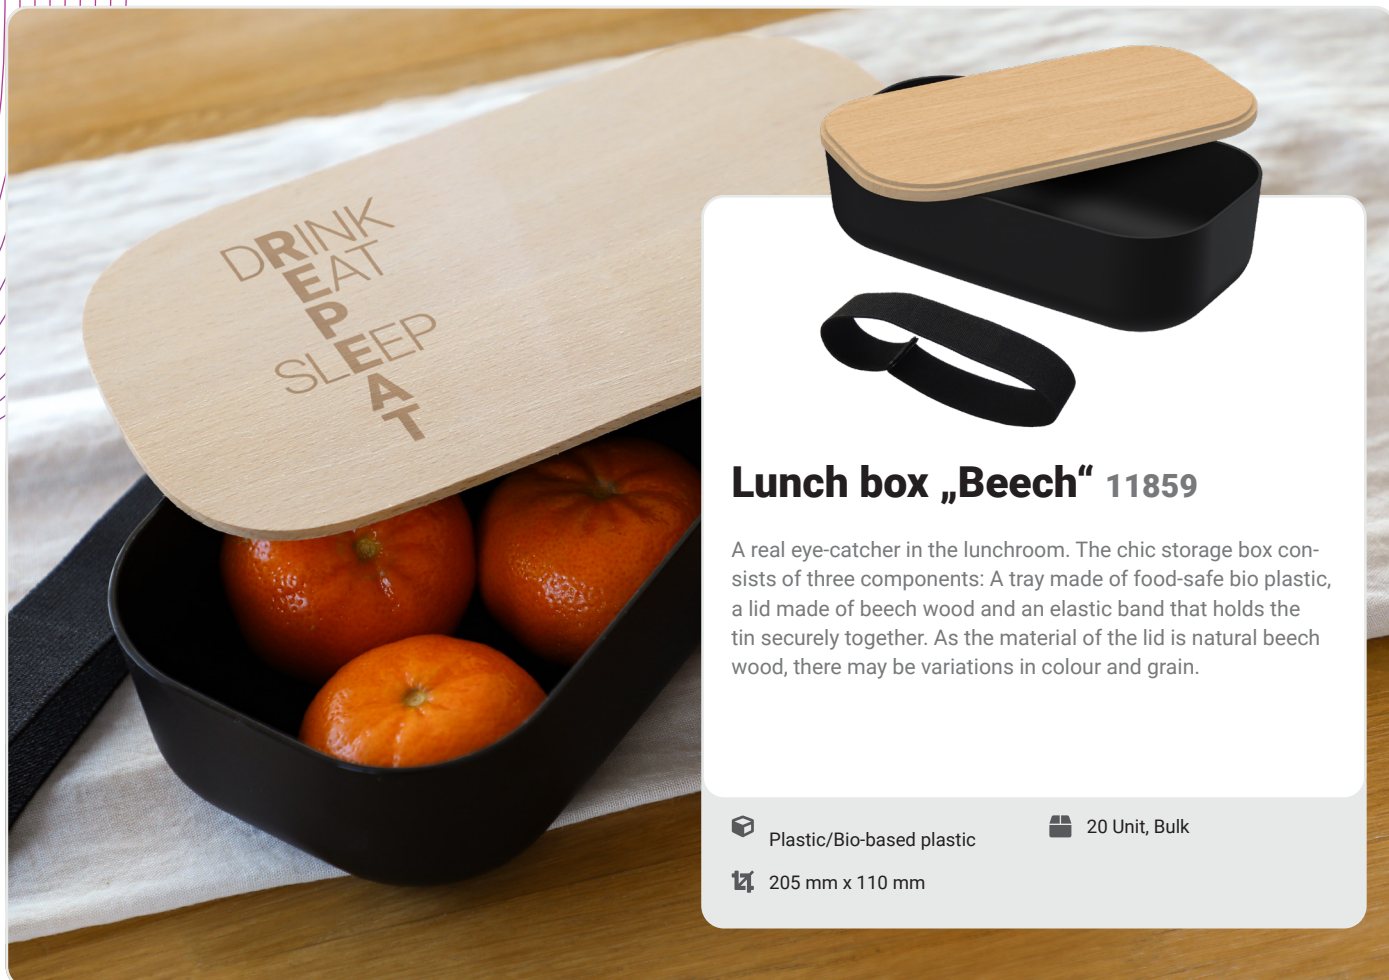

Eco-Lunchbox „Match“ 14568

A touch retro, but still totally fashionable. Spacious lunchbox comprising two rectangular bowls attached by an elastic band (65 % polyester, 35 % latex). The lid can be completely pulled over the base, but its side recesses also make it easy to remove. IMould branding possible. Made of organic plastic and available in many beautiful natural colours.

 Plastic/Bio-based plastic

 45 Unit, Bulk

 179 mm x 130 mm x 61 mm

Lunch box „Beech“ 11859

A real eye-catcher in the lunchroom. The chic storage box consists of three components: A tray made of food-safe bio plastic, a lid made of beech wood and an elastic band that holds the tin securely together. As the material of the lid is natural beech wood, there may be variations in colour and grain.

 Plastic/Bio-based plastic

 20 Unit, Bulk

 205 mm x 110 mm

155 mm x 119 mm x 7 mm

Other versions with customised
3D logo (01012) or blanco (01011).

Ice scraper „TopGrip - Digital Vision“ 01013

A cleverly designed ice scraper - MADE IN GERMANY. The shape of the ice scraper makes it comfortable to use. The anti-slip material on the handle helps to efficiently and quickly scrape off any ice on the windshield. The jagged edges on the top side of the ice scraper easily help to remove thick layers of ice. The handle has one printable plate on each side which can be used for uv-digital printing, thus creating effective advertising.

 Plastic/Polystyrene
 220 mm x 100 mm x 27 mm

 40 Unit, Bulk

TOPGRIP 3D

Ice scraper „Square“ with water scraper 04224

Extra features. Handy, flat ice scraper with scraping teeth, smooth scraper edge and water scraper.

 180 Unit, Individual carton

**2 waste single-use
plastic bottles from
the ocean.**

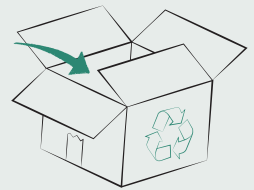

Let's recycle together: Our innovative recycling process.

1. Return.

We offer high-quality plastic items made using robust materials. But once our products have fulfilled their duties, we are happy to receive them back free of charge, and recycle them fully. All the plastic items we produce can be cleaned and sent back to us at the end of their life.

2. Separation by type.

We separate the items to be recycled by colour and type, and grind them up. The resulting granular material enters the production process.

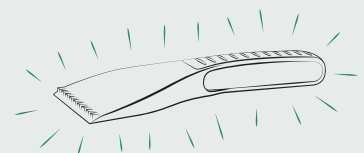

3. Delivery into production.

Due to the separation-by-type process and the unchanged structure of the plastic, the recycle can be added back into the production process without problems. Hardly any other material has such incredible properties.

4. A new item.

The recycle is used to make a new item, and the cycle begins again. Recycled materials that we don't use ourselves are made available for the production of secondary products, leading to the creation of dustbins, for example.

Products made from 100% recycled material.

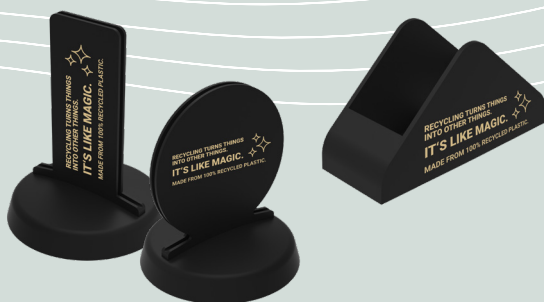

Quality
Made in
Germany.

The new recycling series impresses with high-quality materials and all that „Made in Germany“. The elegant products offer space for personalised messages and are easy to clean and robust.

Valuable trays

Anti-slip honeycomb structure provides a particularly secure grip. Both the top and bottom sides are perfectly suited for IMould finishing.

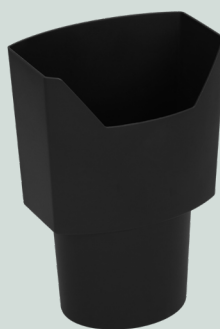

Menu card- and Beer coaster holder

High-quality menu card holders (square or round) and beer coaster holders with large advertising space on both sides.

Ice scraper

Remove ice from windscreens in no time at all. Sturdy and handy ice scrapers in various designs and with a large advertising space.

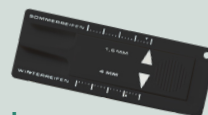

Car Organizer

For those who love organisation. Practical organizer for less chaos in the car.

Practical helpers

Whether shopping trolley tokens or tyre tread gauges, these gadgets make everyday life easier and offer the perfect place for advertising.

- ✓ Made from recycled material.
- ✓ BPA free and without harmful plasticisers.
- ✓ Individually finishable.
- ✓ Production with our own green electricity and 100% recyclable.
- ✓ Sustainable production in Germany.

Through the use of recycled materials, we can actively conserve resources. This increases the sustainability of our products and sets an example for the responsible handling of plastics.

CUSTOMISED products.

We turn your ideas into reality with unique branding.

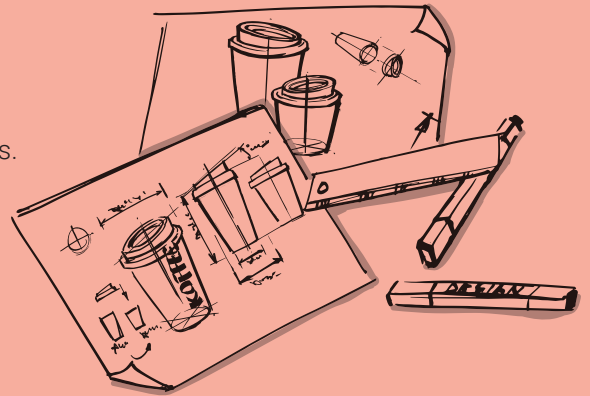

We create and develop the complete solution based entirely on your ideas and requirements, ensuring that everything is 100% customised and from a single source. We give your ideas a special edge. Within a very short time, we are able to produce unique articles ready for series production. We place particular emphasis on customer proximity and personal consultation throughout the entire process.

Preparation for production.

Development, technology and quality.

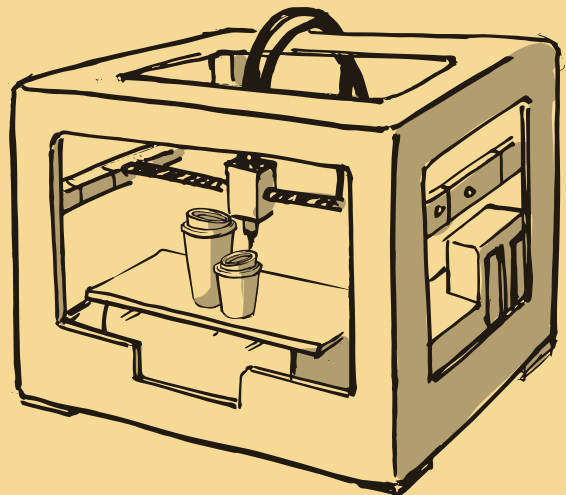

- Creation of a 3D design and determination of the printing dimensions.
- Inspection and project approval by Factory Audit (manufacturer qualities, QM system, production execution).
- Finalisation of printing dimensions and embossing fields.
- Creation of 3D prototypes and samples.
- Conduct of adhesive and behavioural testing.
- Sampling of the desired colour shade.

The manufacturing process.

Production and finishing.

- Tool sampling.
- Finalisation of the quantities.
- Production in the injection moulding shop in 3-shift operation.
- Customer approval based on a pre-production sample in the ongoing manufacturing process.
- Extensive visual inspection of all production parts.
- Determination of the finishing process in the print shop.
- Production in 2-shift operation.
- Meticulous quality control of the printed products.
- Production of instructions, stickers, etc.
- If necessary, assembly of individual parts.
- Quality control.

Completion.

Service from the beginning to the end of the order. And beyond.

- Final product inspection.
- Packing in polybags and outer cartons.
- Labelling according to required standard.
- On-time delivery, if desired in partial deliveries.

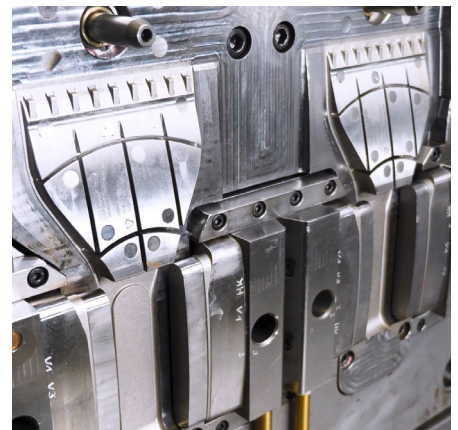

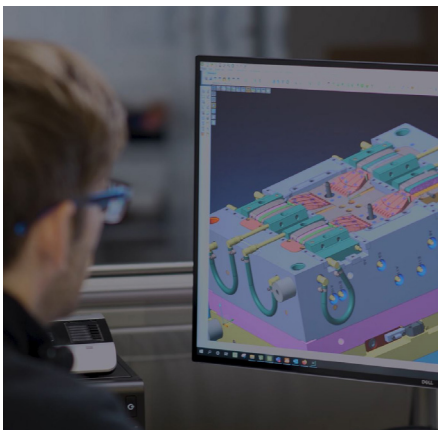

Customised solutions in all branches of industry.

Whether it is 3D prototyping, individual or overall project work, technical advice, repairs or the supply of spare parts - elasto offers individual options as well as comprehensive service from a single source.

Flexibility and speed are top priorities at elasto toolmaking: Thanks to „Made in Germany“ production and modern machinery, 5-axis CNC milling, wire cutting, deep-hole drilling, die-sinking EDM and rapid prototyping are possible.

Guidelines & Regulations.

Toys.

All offered children's toys comply with the European Directive 2009/48/EC on the safety of toys and the EN 71 series of standards. Toys may be unsuitable or dangerous for children of a certain age due to their function, dimensions, features, characteristics or other reasons. To further improve safety, the toy comes with warnings informing the consumer of the potential danger posed by the toy.

The following are the warnings that apply to the individual articles. Next to the offered items in this catalogue are small numbers that match the listed warnings.

1. Attention! Not suitable for children under 3 years, because of small parts that can be swallowed. Choking hazard!
2. Attention! Not suitable for children under 3 years. Risk of injury due to long cord.
3. Attention! Not suitable for children under 3 years. Danger of strangulation and tripping due to long cord. Do not use near power lines or during thunderstorms.
4. Attention! Use under the direct supervision of adults. Not suitable for children under 3 years. Danger of falling! The Schneeflitzy requires great skill in steering and braking, so learn to use it on flat, safe terrain. Use only by one person at a time.
5. Attention! Use only in shallow water under adult supervision. This is not a buoyancy aid! No protection against drowning!
6. Attention! Do not aim at eyes or face.
7. Attention! Use under the direct supervision of adults. Liquid can be swallowed!
8. Attention! Sharpener contains a sharp edge due to its function. Risk of injury!
9. Attention! Not for transporting children!

0+ to 8+

All information with „+“ is to be understood as an age recommendation or as an educational note.

Sporting items, fan items, decorative items.

The sports, fan and decorative items offered in this catalogue are sold as such. In order to prevent possible confusion with toys, these items are marked with the following inscription.

Sport „Sporting goods - Not toys!“

Fan „Fan items - Not a toy!“

Deco „Decorative items - Not a toy!“

REACH.

All offered articles comply with the European Regulation No. 1907/2006, Registration, Evaluation, Authorisation and Restriction of Chemicals. The EU's objective is to produce and use chemicals in such a way as to minimise adverse effects on human health and the environment.

Customer information.

We hereby confirm, in accordance with Article 59 (1, 10) of the EC- Regulation number 1907 / 2006 (REACH), that articles delivered by us do not contain substances of the candidate list above 0.1% mass. We undertake to regularly compare our products with the substances specified in the candidate list in accordance with the REACH Regulation. Insofar as we determine that our products comply with Art. 33, we will inform you about this immediately and take appropriate measures in individual cases.

General information.

Please understand that we do not have the items in stock in all colours of our standard colour palette. Ask our sales staff for the available colours, minimum quantities and colour surcharges. We print exclusively with physiologically harmless inks. The disposal of the paints and screens is carried out in a closed system. Screens are recycled after use for technical reasons. For repeat orders, the sieve must be recreated and calculated.

For imprints, we need a copyable black-and-white original or a film 1:1, with transfer motifs reversed. In the event of necessary changes to your originals or multi-colour films, we will charge you the lithographic costs incurred by us. However, we will inform you in advance and make the changes only with your permission. It is also possible to create individual designs and final drawings on request. These will be invoiced by us at cost. An exact reproduction of the desired shade depends on the colour and condition of the item. For darker surfaces, white may be required.

Deliveries to new customers and abroad are made against prepayment or cash on delivery or irrevocable letter of credit.

The contractual relationship shall be governed exclusively by the laws of the Federal Republic of Germany. The UN Convention on the International Sale of Goods (CISG) and the referral provisions of German Private International Law (IPR) do not apply.

Errors and misprints excepted.
