WHAT CAN YOU FIND IN OUR SWEET CATALOGUE?

# Velvety Belgian chocolate is our sweet specialty!

## CHOCOLATE VARIETIES:

**Milk 33% Cocoa** – a warm, brown color with a smooth cocoa texture and caramel notes in the background. This is the most popular chocolate among chefs worldwide. Its exceptional creaminess makes each milk piece melt in your mouth!

**Dark 57% Cocoa** – with a deep aroma and creamy texture, this chocolate has a rich cocoa flavor with delicate, fruity notes, thanks to the roasting of whole cocoa beans used in its production.

**Ruby 47% Ruby Cocoa** – surprising flavor and original ruby hue. Made from red cocoa beans from the Ivory Coast, Brazil, and Ecuador. Not only does it stand out in color, but it also has an intense, fruity flavor with a fresh, tangy note.

**Caramel 40% Cocoa** – chocolate with a rich toffee, butter, and cream flavor, enhanced by a touch of salt. Subtle, light amber color with a golden hue invites you to taste this masterful blend of fine ingredients.

**Plant-Based (NXT) 72% Cocoa** – a dairy-free chocolate that is just as creamy, delicious, and rich in cocoa as its traditional milk counterpart, yet contains no traces of dairy. The creamy, milky taste is achieved with the addition of tiger nut known as chufa, which grows in the Mediterranean and Africa. Fully suitable for vegans and those with lactose intolerance.

### Additives and Fillings for Our Chocolates:

- ground almonds, pistachios, hazelnuts and walnuts,
- coffee from the oldest Polish roaster – Pluton,
- fine spirits from J.A. Baczewski,
- fruits and flower petals, hibiscus flower,
- natural honey, salted caramel, peanut butter,
- matcha green tea,
- roasted cocoa beans, salt and chili,
- champagne,
- spicy cookies,
- any addition, flavor on request.

**Dark 72% Cocoa** – a dark dessert chocolate made from the finest Belgian cocoa. It features a very subtle, moderate sweetness characteristic of classic dark chocolate. A sweet compromise between milk chocolate and bitter dark chocolate.

**White 36% Cocoa Butter** – iconic white chocolate with a balanced flavor and noticeable milk notes. Created for fans of original tastes. Creamy, smooth texture with a milky flavor – subtle, classic sweetness.

**Milk with Honey 33% Cocoa** – milk chocolate with a touch of natural honey. A unique flavor combination with milky, caramel, and honey notes.

**Wholefruit 54% Cocoa** – an exceptional chocolate made entirely from pure cocoa fruit, a revolution in taste. Chocolate flavor with strongly noticeable fruity notes. No refined sugars, emulsifiers (lecithin), or flavorings (vanilla). Utilizing what nature has created. The healthiest and most eco-friendly chocolate you can imagine!

**Sugar-Free Milk 33% Cocoa (Sugarfree)** – the perfect flavor composition, combining the rich taste of chocolate with the richness of cocoa and milk. Sweetness is achieved using maltitol, complemented by natural Bourbon vanilla. The texture, color, and pleasure of classic chocolate, but without the sugar!

In 2022, we focused on our own dried fruits and nuts production. How about dried currants in white chocolate, raisins with a coffee twist or orange peel in dark chocolate with a hint of Earl Grey?

## COLLECTION GINGERBREAD FABLE

Aromatic and rich with spicy notes, our gingerbread collection delights both the heart and the palate. The gingerbread line features unique candy shapes. Renowned illustrator Martyna Wójcik-Smierska created the aesthetic packaging, highlighting the products' uniqueness with a one-of-a-kind design full of festive magic. The collection includes pralines and chocolates with gingerbread filling, aromatic gingerbread cookies, spiced biscuits, and creamy shape chocolates.

**We are constantly working on the maximum reduction of plastic consumption in our packaging.**

**Where it is necessary due to the safety of a food product, we use one that is 80% recycled and 100% recyclable for reuse. Our product moldings are made of R-PET foil. What does it mean?**

PET (polyethylene terephthalate) is currently one of the most commonly used packaging materials because it protects the product's properties as well as being lightweight, durable and transparent. Such packaging allows to maintain the high quality and properties of the stored product. PET packaging is made of the so-called primary raw material, i.e. obtained directly from crude oil fractions in an appropriate chemical process. One of the characteristics of PET is that it can be easily recycled, and because of the ease of processing and recovery, PET packaging is a valuable raw material. They can be easily transformed

into bottles, t-shirts, sleeping bags and carpets or other articles.

**R-PET, or recycled PET, is a popular, high-quality plastic suitable for contact with food, commonly used for the production of bottles and packaging.**

Importantly, after processing, it does not lose the properties of PET. It is safe, functional and helps to significantly reduce the production of new plastics.

**Why is the use of R-PET plastic beneficial for the natural environment?**

- limits the production of new material,
- reduces CO<sub>2</sub> emissions from 40 to 80%,
- recycling reduces water consumption in the production process (approx. 90%) and energy (approx. 80%),
- R-PET is a step towards a closed circular economy,
- the material is suitable for continuous recovery – materials and raw materials can remain in economic circulation as long as possible R-PET has a lower carbon footprint.

**The effect of using R-PET packaging is also a significant reduction in greenhouse gas emissions!**

# IN OUR OFFER, YOU'LL FIND THREE TYPES OF PAPER TO CHOOSE FROM!

The packaging of promotional sweets is pivotal. It transcends being a mere box, it's your canvas for advertising, an avenue to shine. Crafted from FSC-certified paper, our packaging showcases our commitment to the environment.

Tailor your packaging to suit your brand, campaign, or the values you wish to express by selecting from three paper types available.

## kraft paper

Paper crafted entirely from recycled or mixed secondary fibers (previously used paper materials).

Kraft paper, distinguished by its natural hue, doesn't undergo a bleaching process; its shade is affected by the recycled content. Due to its unique color, the CMYK and PANTONE color palettes might display varied saturation compared to white paper.

## white paper

White paper consists solely of primary fibers, derived as a by-product from fresh wood fibers acquired through processes like sawmilling or controlled tree harvesting. Its color is achieved through a chlorine-free bleaching process. It's recyclable and supports up to 25 recycling cycles.

This paper allows for excellent reproduction of the PANTONE and CMYK color palettes.

## ecru paper

Modern paper enriched with grass fibers, incorporating up to 40% ecological grass fibers alongside other virgin fibers. Utilizing grass in paper production conserves water, curtails energy consumption, and minimizes the requirement for substantial chemical use, consequently slashing CO2 emissions by about 75%.

This environmentally-conscious paper is fully biodegradable. Its versatile properties enable the realization of innovative and unconventional projects while highlighting eco-friendly aspects.

# COLLECTION WITH THE ADDITION OF PLUTON COFFEE

Pluton, the oldest Polish coffee brand, produced in the first professional roastery in Poland, founded in Warsaw in 1882. This artisanal coffee creates a perfect pairing with our Belgian chocolate, made from Cocoa Horizons certified cocoa.

# COLLECTION WITH THE ADDITION OF PLUTON COFFEE

Now, you have a unique opportunity to order exceptional products created in collaboration with a brand of inspiring history and longstanding tradition. The signature recipe, artisan-roasted coffee, Belgian chocolate, and stylish packaging design—this collection is truly one of a kind.

In the pralines and chocolates created in partnership with the Pluton brand, you won't find artificial ingredients or palm oil. Instead, you'll discover the velvety taste of Belgian chocolate and creamy fillings with distinct notes of natural coffee.

We recommend the SLODKIE x Pluton line for coffee connoisseurs.

## DISCOVER THE PRINT LINE

Sweet treats with a personal message are always a great idea. If you're also a fan of customized solutions, you'll love our PRINT line.

**Personalizing directly on chocolate has never been easier!**

### HOW DO WE DO IT?

1

We use edible and completely safe colored food inks from certified suppliers for the personalization on chocolate.

2

Our inks are free from animal-derived ingredients, GMO-free, and have the highest safety certification for pharmaceutical and food use.

3

We apply a thin, imperceptible layer of decoration that creates a clear image, colorful graphic, logo, or your company name on the chocolate.

4

The PRINT line offers a more affordable and faster option compared to embossed logo chocolates!

## MESSAGE

Shape and taste are not everything yet. Do you want to prepare a product that - literally - tells more about your company? Create a message and we will place it directly on the selected product!

For this, we use edible food coloring inks without ingredients of animal origin and GMOs, with the highest safety certificate for pharmaceutical and food use. That is why we always perform a completely safe and aesthetic full color personalization.

## PACKAGING

We can design a wholly new packaging or personalize classic products from our offer. For this purpose, we will perform high-quality digital printing on paper, UV printing on a can or flexographic printing on foil.

In the chosen tin models in addition to printing we will also do an aesthetic embossing!

## METAL TIN

**Do you remember that we also offer our dragees, candies, teas and pralines in metal tins?**  
**Why is it an ECO-friendly option?**

The tins are extremely durable and environmentally friendly as a packaging material. They will not only survive washing in the dishwasher, regular, long-term use or falling off a shelf – they are also perfectly recyclable!

**Metal is endlessly recyclable. It means that the metal tins in which we put our dragees or gums can be recycled many times... without losing its quality and with the highest recyclability rate of all packaging materials! The use of secondary raw materials means energy savings compared to the use of virgin raw materials.**

- all metal tins in which we pack SLODKIE gadgets are aesthetic and durable. After eating dragees or drinking tea, they are perfect for storing small items,
- up to 95% of a tin can be recycled,

# GINGERBREAD COLLECTION

The scent of ginger, cinnamon, cloves, and honey—only gingerbread can exude such an aroma. We present spice-themed novelties that radiate not only a beautiful fragrance reminiscent of home warmth but also an incredible taste.

This collection is a blend of flavor and creativity. Here, you'll find spiced cookies with unique shapes, such as a cookie in the shape of a truck or a house, as well as impressive personalization options—logo directly on the cookie. The collection also features classic gingerbread from Toruń!

This line captivates not only with its creative candy shapes but also with its aesthetic packaging designed by the renowned illustrator Pola Augustynowicz.

To emphasize the uniqueness of the products, the artist has created a unique visual presentation. Her design includes many details that graphically connect with the festive spiced treats.
